EDUCATION

Computer Science
Bina Nusantara University
GPA: 3.81
2021 - 2025

SMA PAHOA
2018 - 2021

SKILLS

I have worked on several web programming case studies using React and Node.js.. I am also experienced in using the C and Java programming languages. In addition, I have a strong understanding of Object-Oriented Programming (OOP) concepts and software development.

EXPERIENCE

2021 - 2022 — Member | BNCC

Bina Nusantara Computer CLub (BNCC) is one of the prominent student clubs or organizations in the university, and it focuses on various aspects of computer science and technology. As a member at BNCC, I take part in the LNT program (Learning and Training), focusing particularly on the C programming. In this program, I succesfully completed all the course, assignment and project.

2022 - Present — OBS & Sound Operator | VDR

As an OBS an Sound Operator at Vihara Dharma Ratna (VDR), I am actively involved in volunteer activities as an OBS and sound operator. My responsibilities include setting up both software and hardware to ensure they are ready for use during events. I also ensure the proper connection of sound and camera equipment to OBS, allowing for seamless broadcasting. Additionally, I operate OBS Studio for live streaming platforms (Youtube) so people can so people can watch events online and offline.

2023 - Present — Instructor | VDR

As a teaching instructor at VDR, I educate children ranging from grades 1 to 6 in elementary school. The topics I teach typically revolve around Buddhist religious knowledge, which is predetermined, requiring me to prepare the specified topics when scheduled. As an instructor, I have gained valuable soft skills such as leadership, teamwork, and time management.

2023 - Present — IT Mentor | BSLC

As an IT mentor in Binus Student Learning Community, I teach and guide mentees who face challenges in their coursework. It is my responsibility to guide and instruct them through 10 mentoring sessions. All of the mentees I assist are Computer Science majors and freshmen. The courses I teach include Discrete Mathematics, Program Design Method, Linear Algebra, and Algorithm and Programming.
